AIMS AND SCOPE

The Journal of Communication and Culture (JCC) is an international journal of high quality devoted to the publication of original research papers from Social Sciences, Arts and Humanities with emphasis on all areas of Communication and Culture and their broad range of application and practice. The articles in this journal are written in scholarly acceptable English and uniquely focused on the problems confronting the emerging global society. The findings are described in terms intelligible to professional and non-professional as well as expert and non-expert readers.

The papers in this journal are original. They have pooled and integrated required information from personal experiences, researches, professionals’ publications, academic sources; contribute meaningfully to the development and advancement of knowledge of the people of the Third World Nations as well as the Developed Nations.
The Centre welcomes research articles for publication from interested scholars, researchers and individuals in the academic community, international agencies, institutions and other establishments concerned with practical approach to development in:

- Teaching, Schools and Business
- Environmental Issues and Agriculture
- Food Technology, Nutrition and Consumption
- Science, Engineering and Technology

   Ikem, I. I
EDITORIAL POLICY ON SUBMISSION

1. Submission of a manuscript for publication in the organization represents a certification on the part of the author(s) that it is an original work, and is neither published nor considered for publication elsewhere.

2. Copyright ownership of the manuscript must be transferred officially before the peer-review process can begin.

3. The frequency of the journal publications is three in a year (April, August and December), while the chapters in the Book of Readings are published bi-annually.

4. Manuscripts must be typewritten, double-spaced (including references and abstract) on A4 paper approximately 5 -12 pages with margins on both sides of the paper. Lengthier manuscripts would attract additional charges based on the discretion of the Editorial Board.

5. References and citations in the manuscripts should adopt author-date-citations. References must be arranged in alphabetical order and must be consistent with the context citations.

6. If an author wishes to submit a paper that has been already prepared in another style, he or she may do so. However, if the paper is accepted (with or without reviewer's alterations), the author is fully responsible for retyping the manuscript in the correct style as indicated above.

7. Papers should be submitted electronically to: icidresearch@gmail.com, review@icidr.org

8. The title page should include a regular title of the paper, full authorship, an introductory footnote with author's academic qualifications, profession, titles, affiliations, mailing and e-mail addresses, and telephone number(s).

9. All the authors are responsible for preparing manuscript copy which is clearly written and should contain no spelling, grammatical or punctuation errors.

10. All the authors should ensure that all arithmetic calculations, statistical and numerical data, text citations, references, abbreviations and terminologies are accurate and consistent.

11. The title of the article should convey the topic of the research. Avoid using words that add little to the meaningfulness of the article. For example, "An empirical study of…", "A correlation field study of…", "A survey of…” "An analysis of…” Such words make the title too lengthy.

12. The abstract should not exceed one hundred and fifty words and should state the aim of the study, methodology, the main idea of the discussion as well as findings and conclusion.

13. The article must be original and innovative, written in scholarly acceptable English and uniquely focused on the problems confronting the emerging global society.
14. The findings must be described in terms intelligible to professional and non-professional as well as expert and non-expert readers.

15. All references must have corresponding context citations and all in-text citations must appear in the references. The use of abbreviations for journal titles in the references must be avoided. Page boundaries (numbers) of Journal articles and Book Chapters; as well as Publishers and City of publications of text cited in the article must be stated in the References.

16. Figures, tables and drawings should be clearly shown and the position(s) marked in the article and should be in the form of a large black and white glossy print.

17. The article must be a high quality research paper, which have pooled and integrated required information from personal experiences, researches, professionals' publications and academic sources to the development and advancement of knowledge. It must be directed to international readership.

18. The Editorial Board reserves the right to reject manuscript where it has failed to meet the international standard/requirements and such decision is final.
